## **Star-K Alert**

**Important Notice** to owners of GE Sabbath Mode Ovens!

It has come to the attention of the Star-K that GE has mistakenly removed a critical piece of information from the Star-K certified oven manuals. In the models of GE, Hotpoint, and Crosley ovens that are listed on our website, the Sabbath mode does NOT control the light inside the oven. The light WILL turn on if you open the oven even when in Sabbath Mode.

Owners of these ovens are advised to either leave the light on over the duration of Shabbos/Yom Tov or simply remove the light bulb ahead of time. The list of affected models is on our website, [star-k.org](http://star-k.org).
